ABMen USA are pleased to announce that we will resume our Bacone College Work Week in 2020. This year’s work week will be held June 7-13, 2020.

As you may know, Bacone College has a rich legacy as part of the American Baptist family. Bacone College was originally founded by Almon C. Bacone 140 years ago for the education of Native Americans according to Christian principles. The college has retained its Christian heritage but now focuses on the needs of Native American students in a multicultural setting. Christian principles are emphasized at Bacone in order to assist students in their growth toward wholeness.

ABMen have been blessed to partner with the college for the past several years by helping first with repairs associated with damage caused by natural disasters, followed by much needed maintenance and facility improvements geared to the start of the next academic year. This year’s projects will include:

- Completion of vinyl tile in Chapel basement floor (±1000 square feet);
- Repair water damaged walls in Arts Building;
- Remodel student apartment bathrooms: replace fixtures and floors
- Installing & finishing sheetrock;
- Plumbing;
- Electrical;
- Painting;

Skill set we are seeking from volunteers: A willing heart and willing hands!

As in the past, the college will provide lodging and food to work party volunteers. If you desire to participate in this work week, please contact the Bacone Work Project Coordinator, Jack Cobb, by email at: cobbjack@suddenlink.net; or by telephone: (304) 206-8462.
